

2013 International Year of Statistics Celebration

Bowling Green State University

The statistics community at Bowling Green State University, Bowling Green, Ohio, USA, will kick off the celebration of the UN designated 2013 International Year of Statistics on Friday, April 19, 2013 with presentations by two internationally known scholars. Jointly sponsored by the Department of Applied Statistics and Operations Research and the Department of Mathematics and Statistics, Professor Changliang Zou from Naikai University in Tianjin, China will deliver a presentation on “Nonparametric Maximum Likelihood Approach to Multiple Change-Point Problems” at 11:30 a.m. Refreshments will be served at 3:30, followed by the Department of Mathematics and Statistics colloquium presentation by Professor Andrew Thomas from Carnegie Mellon University. Professor Thomas’s presentation is titled “Competing Process Hazard Function Models for Player Ratings in Ice Hockey.” Both presentations and refreshments will be in MSC 459 on the 4th floor of the Mathematical Science Building.

Please come join us at the presentations and refreshments to celebrate the International Year of Statistics. Additional campus-wide events to celebrate the International Year of Statistics are being planned for the fall 2013 semester. Stay tuned for future announcements.
